About Me:

An experienced and creative employee with a level head and rational approach to problem-solving combined with a passion for innovative and fresh ideas and a strong communicator with the ability to convey ideas clearly with an emphasis on client satisfaction.

Combining knowledge of multiple fields including programming, networking and web development gives me a good understanding of how to lead any team in a practical way but, of course leading a team is not just about knowing more technical information but it is also about making the team acts as one which is an experience I made through my voluntary work at RBC's Team (2 years) and at MJO in Al-Marimia Church (5 years).

Programming and Web Dev. Skills

Networking and General Computing

Work Experience

Support Team Manager

June 2017 - Present
Momento Group
www.momentogroup.net

It is an online advertising network that provides publishers with a video/article publishing system and ads so they can monetize their content and earn money through online ads.
My responsibilities were not limited to leading the support team, activating ads and user accounts, managing the ad server, communicating with partner companies, putting strategies in order to improve the work process and training new support members.

Projects

Graduation Project

June 2017

High Availability Network for HSBC

I was in charge of administering the network through DHCP, DNS and Active Directory Domain Service (ADDS) which are the main services in any domain network.
I was able to accomplish the tasks through powershell commands and used DNSSEC to protect the DNS Server.

beni-w-benak.rf.gd
August 2017

Beni-w-benak.rf.gd

A website to store memories for kids camp at The Holy Cross Church.
Using HTML, CSS, jQuery and PHP i made accessing the memories much easier and with a responsive design it was accessible through any device.
